Boost

By Mustafa Timur

Boost is produced from single-piece molded foam without an internal frame. This structure resists deformation even with prolonged use, maintaining its form for years. With leg options and variations with or without armrests, it adapts to any setting from workspaces to meeting rooms, lounges to bars. Encountering the same design language across different areas brings coherence to a space.

Boost, iskelet kullanmadan tek parça döküm süngerden üretilir. Bu yapı uzun süreli kullanımda bile deformasyona uğramaz, form yıllar boyu korunur. Ayak seçenekleri ve kolçaklı-kolçaksız varyasyonlarıyla çalışma alanından toplantı odasına, lounge'dan bara kadar her mekâna uyum sağlar. Farklı alanlarda aynı tasarım diliyle karşılaşmak mekâna tutarlılık kazandırır.

Brand Attributes

Marka Değerleri

We recognize that our planet is the only home we share with all living beings. At Marwood, we embrace this responsibility through conscious production that respects our resources and considers both present and future. We develop nature-focused and inclusive policies, continuously improving them across all our business processes.

Gezegeneimizin tüm canlılarla paylaştığımız yegâne evimiz olduğunun bilincindeyiz. Marwood olarak bu sorumluluğu, kaynaklarımıza saygılı ve bilinçli bir üretim anlayışıyla üstleniyoruz. Doğa odaklı ve kapsayıcı politikalarımızı tüm iş süreçlerimizde sürekli geliştiriyoruz.

At Marwood, we design functional and value-driven furniture beyond trends with the FLEXO principle. With our durable, timeless, and modular products, we offer sustainable and solution-oriented approaches at every stage, from production to user experience. FLEXO represents a comprehensive design culture that combines aesthetics, functionality, and quality, carefully developed by Marwood.

Marwood olarak, FLEXO prensibiyle trendlerin ötesine geçen, işlevsel ve değer odaklı mobilyalar tasarlıyoruz. Dayanıklı, zamansız ve modüler ürünlerimizle, üretimden kullanıcı deneyimine kadar her aşamada sürdürülebilir ve çözüm odaklı yaklaşımlar sunuyoruz.

We aim to develop environmentally friendly methods across all production stages, from material selection to waste management and recycling. In furniture production, we have implemented the EcoHue protocol, which collects and recycles waste powder paints with a 100% recycling rate. By mixing waste paints of different colors, we obtain a gray-toned paint used on invisible surfaces of our designs. Through EcoHue, we recycle 4 tons of waste paint annually and finish 26,800 m² of material with this eco-friendly solution.

Üretim aşamalarımızda malzeme seçiminden atık yönetimine kadar çevre dostu yöntemler geliştirmeyi hedefliyoruz. Mobilya üretiminde uyguladığımız EkoHue protokolü ile fire toz boya %100 geri dönüştürüyoruz. Farklı renk ve tonlardaki fire boya karıştırarak elde ettiğimiz gri tonlu boyayı, tasarımlarımızın görünmeyen yüzeylerinde kullanıyoruz. EkoHue ile her yıl 4 ton atık boyayı geri dönüştürüyor ve 26.800 metrekare malzemeyi bu çevre dostu çözümle bitiriyoruz.

At Marwood, we offer a dealership system that delivers efficient, tailored solutions for both local and global markets. From design to logistics, we ensure smooth project execution with a focus on customer satisfaction and budget-friendly planning.

Marwood olarak, hem yerel hem de global pazarlara yönelik verimli ve kişiye özel çözümler sunan bir bayi sistemiyle çalışıyoruz. Tasarımdan lojistiğe kadar her aşamada, müşteri memnuniyetine ve bütçe dostu planlamaya odaklanarak projelerin sorunsuz bir şekilde ilerlemesini sağlıyoruz.
